

CONNECTED BREWING

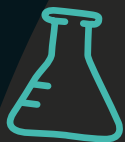

GRAINFATHER

G SERIES

Our most advanced homebrewing systems with connectivity that allows you to control your brew via the Grainfather App. **Feeling thirsty?**

EXPERIMENT WITH ME

01

The Grainfather **G30** is a multi award-winning brewing system that has a 30L (8 US Gal) capacity, which is designed to make up to 23L (6 US Gal) of beer from one brew. With app integration, innovative features, and intuitive design, it's perfect for both beginner and experienced homebrewers.

FEATURES

- Sleek 304 grade stainless steel body
- Connect your mobile device to the Bluetooth controller via the Grainfather App and manage your brew remotely
- A robust magnetic drive pump for maximum brewing efficiencies
- An extendable grain basket that is designed to hold different weights of grain
- Efficient and sanitary brew transfer with the counterflow wort chiller
- Clips to easily attach the alembic dome accessory, allowing you to convert your **G30** into a microdistillery
- Available in both 220V and 110V in the US
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	733 x 386mm (29 x 15")
WEIGHT:	17kg (37lb)
CAPACITY:	30L (8 US Gal)
BATCH VOLUME:	Max: 23L (6 US Gal) Min: 10L (3 US Gal)*
GRAIN BILL:	Max: 9kg (20lb) Min: 5kg (11lb)
POWER:	NZ, AU, EU, UK, US: 2000W, 220-240V Also in the US: 1600W, 110-120V
CONNECTIVITY:	Bluetooth control

*10L (3 US Gal) batch volumes are only achievable with the micro pipework (sold separately)

WHAT'S INCLUDED

Grainfather **G30**
 Bluetooth controller
 Counterflow wort chiller
 Inner basket
 Overflow pipework
 Top & bottom plate
 Lifting handle
 Grain stopper
 Glass lid
 Recirculation pipe
 Filter
 Hose fittings

PAIR WITH Grainfather **GF30** & **GC4**

I'M BIGGER & SMARTER

GRAINFATHER
3
YEAR WARRANTY

The Grainfather **G40** brewing system has a bigger capacity and better connectivity. Produce up to 40L (11 US Gal) of beer from one brew. Connect your mobile device to the smart controller with built-in wireless control via the Grainfather App, for step-by-step brewing and access to bazillions of recipes.

FEATURES

- Sleek 304 grade stainless steel body
- Heats wort evenly with large, surface mounted heating elements
- Connect your mobile device to the smart wireless controller via the Grainfather App and manage your brew remotely
- Conical base for maximum wort transfer
- Efficient and sanitary brew transfer with the counterflow wort chiller
- PID heating control for accurate temperature management during mashing
- Quick and easy cleaning with CIP (clean in place) capability
- Integrated sight glass for easy volume reading
- Rolled edge mash plate and large hop filter to reduce blockages
- Compatible with 10 and 15 amp modes (15 amp NZ/AU only)
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	650 x 530mm (26 x 21")
WEIGHT:	29kg (64lb)
CAPACITY:	46L (12 US gal)
BATCH VOLUME:	Max: 40L (11 US gal) Min: 10L (3 US gal)
GRAIN BILL:	Max: 13kg (29lb) Min: 3kg (7lb)
POWER:	NZ, AU: 2300 - 3200W, 230V UK: 2900W, 230V US, EU: 3300W, 230V
CONNECTIVITY:	Wireless control

WHAT'S INCLUDED

Grainfather **G40**
 Smart controller with built-in wireless connectivity
 Counterflow wort chiller
 Glass lid
 Lifting bar
 Inner basket
 Recirculation hose
 Grain plate
 Hop filter
 Fittings

PAIR WITH Grainfather **SF70**, **GC4** & **GCA KIT**

GO ON, AA I LOVE A CHALLENGE

GRAINFATHER
3
YEAR WARRANTY

05

The Grainfather **G70** is the ultimate brewing system with a gigantic 70L (18 US Gal) capacity, allowing you to create 60L (16 US Gal) batches of beer at a time. The perfect match for experienced brewers, with built-in wireless connectivity, so you can connect to the Grainfather App for guided brewing and access to brewing tools, recipes and calculators.

FEATURES

- Sleek 304 grade stainless steel body
- Connect your mobile device to the smart wireless controller via the Grainfather App and manage your brew remotely
- Conical base for maximum wort transfer
- An extendable grain basket that is designed to hold different weights of grain
- Efficient and sanitary brew transfer with the counterflow wort chiller
- Quick and easy cleaning with CIP (clean in place) capability
- PID heating control for accurate temperature management during mashing
- Integrated sight glass for easy volume reading
- Rolled edge mash plates and large dual stage hop filter to reduce blockages
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	830 x 530mm (33 x 21")
WEIGHT:	37kg (81lb)
CAPACITY:	70L (18 US Gal)
BATCH VOLUME:	Max: 60L (16 US Gal) Min: 40L (11 US Gal)
GRAIN BILL:	Max: 17kg (37lb) Min: 8kg (18lb)
POWER:	NZ, AU, EU, US: 3300W, 220-240V UK: 2900W, 220-240V

YEAR WARRANTY

GF30 CONICAL FERMENTER

The Grainfather **GF30** conical fermenter is designed to hold up to 30L (8 US Gal) of wort. With a digital temperature controller that has built-in wireless control, you can connect to the Grainfather App via your mobile device. Add fermentation tracking devices and manage your fermentation from anywhere.

FEATURES

- Sleek 304 grade stainless steel body
 - Connect your mobile device to the built-in, wireless controller via the Grainfather App and manage your fermentation from anywhere
 - Double-walled for constant and stable temperature control
 - Golden angle conical avoids yeast and sediment getting stuck to the sides of the fermenter
 - Dual valve tap allows you to easily dump yeast, transfer your brew and take samples
 - Integrated 30W heating element and cooling sleeve both sit within the cavity of the fermenter to control and maintain the temperature evenly
- NOTE: Cooling functionality only available when connected to the **GC4** or the cooling pump kit (each sold separately)
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	910 x 360mm (36 x 14")
WEIGHT:	10kg (22lb)
CAPACITY:	30L (8 US Gal)
POWER:	12V transformer
CONNECTIVITY:	Wireless control

WHAT'S INCLUDED

Grainfather **GF30**
Built-in controller with wireless connectivity
Silicone bung & airlock
Dual valve tap
Power cables
Silicone transfer hose

PAIR WITH Grainfather **GC4**

CONSISTENCY IS MY MIDDLE NAME

GRAINFATHER
3
YEAR WARRANTY

The Grainfather **GC4** glycol chiller allows you to take your fermentation to another level. Power and control the temperature of up to four **GF30s**, each with different temperatures and their own fermenting schedules. By accurately controlling the temperature of your fermentation, you can produce consistent beers, every time.

FEATURES

- Sleek and compact design with LED control display
- Control and power up to four Grainfather **GF30s** at different temperatures and fermenting schedules
- Cold crash 23L (6 US Gal) of wort to temperatures as low as 4 - 6°C (39 - 43°F)
- Compatible with the Grainfather App when connected to a **GF30** or **GCA KIT**, for managing your fermentation from anywhere
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	656 x 390mm (26 x 15")
WEIGHT:	28kg (62lb)
CAPACITY:	6L (2 US Gal) glycol tank
POWER:	NZ, AU, EU, UK: 300W, 220-240V US: 300W, 110-120V
CONNECTIVITY:	None (wireless control available when used with the GF30 or GCA KIT)

WHAT'S INCLUDED

Grainfather **GC4**
 3L (1 US Gal) propylene glycol
 2 x cooling connection couplers
 2 x 2m (6.5ft) insulated hoses
 Glycol funnel
 Silicone tube for priming pump

PAIR WITH Grainfather **GF30**, or **SF70** & **GCA KIT**

I'M THE FERMENTATION • 😊 MIDDLEMAN

GRAINFATHER
3
YEAR WARRANTY

The Grainfather **GCA** Kit makes accurate temperature control more accessible for brewers. Whether you have a plastic or stainless steel fermenter, bucket or barrel, or even a conical, this kit has everything that you need to connect your fermenter to the **GC4**. Take control of your fermentation and create even better beers.

FEATURES

- Compact design with colour display screen
- Use the **GCA** to connect a variety of different fermenters to the **GC4** for accurate temperature control during fermentation
- Wireless capabilities, making it compatible with the Grainfather App so you can control your fermentation from anywhere
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	GCA: 101 x 63mm (4 x 2") Heating pad: 80 x 220mm (3 x 9") Cooling coil: 520 x 119mm (20 x 5")
CABLE LENGTH:	GCA: 2m (6.5ft) Heating pad: 2m (6.5ft) Temperature probe: 2m (6.5ft)
POWER:	GCA: 12V Heating pad: 30W
CONNECTIVITY:	Wireless control

WHAT'S INCLUDED

Grainfather **GCA**
 Heating pad
 Cooling coil
 Rubber bung
 Temperature probe
 Hoses
 2 x hose clamps
 4 x rubber bung stoppers
 NOTE: **GC4** and fermenter are not included

PAIR WITH Grainfather **SF70** & **GC4**

SF70 CONICAL FERMENTER

The Grainfather **SF70** conical fermenter has been built to hold big batches of wort with a 70L capacity (18 US Gal). It's sleek, stainless steel finish makes cleaning simple and with an intuitive design, you can easily adjust the height, take samples, and dump yeast to avoid the build-up of yeast and sediment.

FEATURES

- Sleek 304 grade stainless steel body
- Golden angle conical avoids yeast and sediment getting stuck to the sides of the fermenter
- Adjustable leg height and rolling wheels for easy manoeuvrability
- Easily dump yeast with a separate valve
- Insert temperature probes into the built-in thermowell for accurate temperature readings
- Transfer and take samples above the yeast and trub line with an accessible valve on the side of the unit
- Backed by a 2-year warranty

SPECIFICATIONS

SIZE:	1300 x 410mm (51 x 16")
WEIGHT:	12kg (26lb)
CAPACITY:	70L (18 US Gal)
POWER:	None
CONNECTIVITY:	None

WHAT'S INCLUDED

Grainfather **SF70**
Lid
Rubber bung & airlock
Thermowell
Sample valve
Dump valve
Legs & castors

PAIR WITH Grainfather **GC4** & **GCA KIT**
