

# Rahr High DP Distillers Malt

High-quality North American barley forms the basis for Rahr Distillers Malt. Processed by Rahr's master maltsters to maximize its enzymatic power, Rahr High DP Distillers Malt packs all the essential building blocks a distiller needs for producing Bourbon, aquavit, and other top-shelf spirits. In fact, you've probably had a spirit made with this malt.

Known for delivering dependable diastatic power as promised, Rahr Distillers Malt also contains high levels of alpha amylase and free amino nitrogen (FAN) to promote optimal yeast nutrition.

## Ask For Rahr Distillers Malt by Name

High DP Malt is not a major source of flavor or extract potential. Rather, it provides high amylase content and reliably converts large percentages of unmalted grains, such as corn, wheat, or rye flakes.
