

ARIANA

German

Origin: Germany. Bred at the Hüll Hop Research Center, Ariana is a cross between Herkules and a wild male hop.

Usage: Aroma. Although high enough in alpha acids to handle bittering duty, Ariana's oil content and organoleptic profile make it a great finishing hop.

Aroma & Flavor Characteristics: Fruity, with intense berry character of black currant and gooseberry. Citrus high notes (particularly grapefruit) with slight resinous and herbal tones.

SENSORY HIGHLIGHTS

Berries
Citrus
Herbal

BREWING VALUES

Alpha Acid Range: 10.0 - 13.0%
Beta Acid Range: 4.5 - 6.0%
