

# AUSTRALIAN GALAXY™

Australian

**Origin:** Australia. The preeminent Australian hop, Galaxy™ arose from breeding programs in the 1990s with ancestry that includes German Perle. It was released in 2009 and has seen very high demand ever since.

**Usage:** Aroma and dry hop. Although it has adequate alpha content for bittering additions, Galaxy™ shines when used as an aroma and flavor hop - the later the better for flavor intensity. Its powerful tropical fruit character is at home as a feature in American pale and IPA, wheat beer, saison, and Brettanomyces-fermented beers.

**Aroma & Flavor Characteristics:** Intense and potent. Musky tropical fruit (passionfruit, apricot, key lime) with dank citrus and earthy blackcurrant.

**SENSORY HIGHLIGHTS**

**Tropical  
Passion fruit  
Citrus**

**BREWING VALUES**

Alpha Acid Range: 13.5 - 15.0%  
Beta Acid Range: 5.8 - 6.0%
