

SOVEREIGN

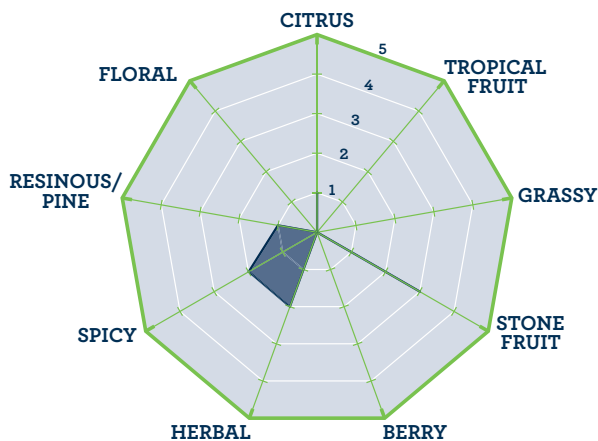

UK

Origin: England. A dwarf (or hedgerow) variety bred for aroma in 1995 at Wye College. Created through an open pollination, Sovereign's lineage includes Pioneer and Whitbread Goldings.

Usage: Aroma. Sovereign can be called on for light bittering but shows to best effect as a late or dry hop. With a classic English profile that trends toward fruitiness, it blends nicely but can easily stand alone as a showcase in hoppy English ales and non-traditional lagers and hybrids.

Aroma & Flavor Characteristics: Complex with moderate to intense fruit (peach, red currant, berry, cherry) not quite balanced by a delicate, tangy spice quality. Suggestions of green tea leaves. Pairs well with earthy or herbal varieties in a blend.

SENSORY HIGHLIGHTS

**Fruit
Spicy
Green Tea**

BREWING VALUES

Alpha Acid Range: 4.5 - 6.5%
Beta Acid Range: 2.1 - 3.1%
Co-Humulone as % of alpha: 26 - 30
